

LASTEC®

Manufacturer of the
World's Only High-Definition
Articulating Mowers

TURF/COMMERCIAL MODEL 73"

Eliminate Compromise between Width and Accuracy

Lastec's 73" (185.42 cm) wide articulating rotary mowers offer the perfect balance between productivity and accuracy. It's a fact that small push mowers deliver the most accurate cut quality. It's also a fact that 73" (185.42 cm) decks are three to four times as productive as small push mowers. Our 73" (185.42 cm) series of mowers give you both...the accuracy of 25" (635 mm) push mowers AND the productivity of a 73" (185.42 cm) wide deck. You no longer have to settle for less production just to maintain the cut quality that you expect and your customers demand.

Models Available: 2873, 2973, 3373, 3573
